

## Extended Mission-critical Protection

Downtime due to a power outage can be painful for any size business. Security systems, data centers, or telephone and communication systems must be up and running or the business is out of business. While the average power outage is about 20 minutes, **the average extended power outage lasts nearly 8 hours.**

Minuteman's first models with extended runtime capability debuted more than 25 years ago - the first in the industry to do so. Since then, our extended runtime products have established a reputation for ease of installation, exceptional value, and unmatched reliability.

## Hours of Protection - Affordably and Efficiently

Two sizes of battery packs are available, providing an unmatched level of customization and ensuring the perfect configuration can be achieved, no matter the demands.

Minuteman's XL and EXL battery packs for Endeavor and EnterprisePlus LCD Series UPSs provide a virtually unlimited amount of runtime potential thanks to daisy-chain capability. This allows administrators to easily configure an affordable UPS solution for their runtime demands, no matter how great they may be.

## XL Battery Packs

Endeavor and EnterprisePlus LCD XL Battery Packs represent the smaller capacity of the two extended runtime options. These units feature daisy-chain capability, along with an internal charger which allows for faster recharge times after an outage occurs. Packaged in a compact 2U-rack height case, the XL battery pack provides a substantial boost to system runtime without compromising performance after an outage occurs.

## EXL Battery Packs

For even longer runtimes, Minuteman's EXL Battery Packs for Endeavor and EnterprisePlus LCD provide extreme battery capacities in a slightly larger form factor. These 3U rack height units are also daisy-chain capable, and can work in place of multiple XL units to provide a more efficient means of obtaining the same runtime.

E750RTXL2U, E1000RTXL2U, E1500RTXL2U, E2000RTXL2U, E3000RTXL2U, E1500RTXL2U, E3000RTXL2U

## XL Battery Pack Features

- **Extended runtime for Endeavor and EnterprisePlus LCD with daisy-chain capability**  
Connect multiple battery packs to a single UPS for added runtime when needed
- **Unlimited number of connected battery packs**  
Extend runtime to virtually unlimited levels for critical applications requiring longer backup times
- **Quick recharge using internal independent battery charger**  
Each XL module includes an independent charger, reducing recharge time significantly without the need for a separate charger
- **2U-rack height**  
Compact case provides high power density ideal for saving rack space
- **Rackmount or tower configuration**  
All XL units include rack and tower mount hardware; optional wall-mount hardware available separately
- **3-year parts and labor warranty**  
5-year extended warranty plans also available

## EXL Battery Pack Features

- **Extreme runtime with daisy-chain capability**  
Achieve 2.25 to 4.75 times the battery capacity of an XL pack in only 3U total rack space; substantially greater runtimes
- **Unlimited number of connected battery packs**  
Connect multiple battery packs to a single UPS for added runtime when needed
- **High VAh configurations ratings**  
Large bank of batteries for extreme power density when even more runtime is needed
- **3U-rack height**  
Combine with 2U UPS unit for substantial runtime in only 5U total rack space
- **Rackmount or tower configuration**  
All EXL units include rack and tower mount hardware
- **3-year parts and labor warranty**  
5-year extended warranty plans also available
