

R91
20KVA
Online Rack UPS
400/230VAC Three-Phase

The R91 UPS provides industry leading power density and efficiency

The R91 UPS provides industry leading power density and efficiency. Online double conversion or ECO mode can be user selected. The R91 is both CE and UL listed making it ideal for worldwide deployments. Programmable battery charger and advanced rectifier power walk-in features help optimize compatibility with numerous source types and ratings.

- Capacity: 20kVA/18kW
- 18kW in just 7U of rack space
- Hot-swappable battery battery modules
- 99% efficient ECO mode or online operation
- Up to four units can be paralleled for additional capacity or N+1 redundancy
- UL-1778, CE, cUL, FCC A, RoHS
- 2 year electronics, 2 year battery warranty (USA and Canada)

POWERLOK
20A-30A
Rack Power Distribution Unit (PDU)
Three-phase or Single-Phase

Setting the standard for rack power innovation, reliability, and delivery

Xtreme PowerLOK is the next generation of rack power distribution. Optional CordLOK universal cord locking allows for easy insertion and retention of power cords. The highest reliability is achieved with machine-soldered connections from the line cord to the receptacles - eliminating all mechanical connections.

- Quick Ship 32 models available. 8400 models available in 10-14 days
- Slim vertical design and angled input whip
- Monitored models include RJ-45 interface, 0.5% metering accuracy, touchscreen display, & historical graphing
- Internal temperature reporting
- TUV certified to UL/CSA 60950-1, NOM, FCC A, RoHS
- 3 years (USA and Canada)
- Made in the USA

POWER PROTECTION FOR THREE-PHASE APPLICATIONS

Established in 2006, Xtreme Power manufactures UPS, and power distribution units for a global network of OEMs and distributors

Configure your UPS applications using our UPS selector:

XTREME POWER CONVERSION THREE-PHASE CRITICAL POWER SOLUTIONS

XTREME
Power Conversion®

E90

10kVA-20kVA
Online Tower UPS
208/120VAC Three-phase

Economical, efficient and reliable E90 UPS provides online power protection in a small footprint

The E90 UPS provides economical three-phase double conversion power for small data centers, retail stores and industrial applications. The fully integrated E90 includes internal batteries and maintenance bypass in a compact enclosure. Programmable charger and matching battery packs make E90 provides extended runtimes up to 24 hours.

- Capacities: 10kVA/10kW, 15kVA/15kW, 20kVA/20kW
- Unity Power Factor – more capacity for high density loads
- Easy to swap power module reduces maintenance time
- Integral rear facing maintenance bypass
- Up to four units can be paralleled for additional capacity or N+1 redundancy
- UL-1778 (TUV), cUL (TUV), FCC A, RoHS
- 2 year electronics, 2 year battery warranty (USA and Canada)

M90 & M90L

15kVA-60kVA
Modular Online UPS
208/120VAC Three-phase

Hot swappable power modules provide scalability for expansion and rapid maintenance and repair

The M90 and M90L UPS are cost effective, modular and double conversion. Systems can be configured with redundant power and battery modules. M90 UPS includes batteries and maintenance bypass in a single integrated enclosure. The M90L can be furnished with external battery system for long runtime applications.

- Capacities: 15kVA, 20kVA, 30kVA, 40kVA, 45kVA, 60kVA
- Hot swappable power modules
- Integral rear facing maintenance bypass
- 5.7" LCD display provides a graphic display that includes status and alarms
- 15kVA or 20kVA modules available
- UL-1778 (TUV), cUL (TUV), FCC A, RoHS, TAA (some models)
- 2 year electronics, 2 year battery warranty (USA and Canada)

M90-80

15kVA-80kVA
Modular Online UPS
208/120VAC Three-phase

Industry leading power density and serviceability

The M90-80 is a scalable, modular UPS for high density computing environments. Online double conversion or ECO mode can be user selected. Expanded capacity, redundancy (N+1) or runtime by adding power or battery modules. M90-80 includes UPS, batteries, and maintenance bypass in one compact enclosure.

- Capacities: 15kVA, 20kVA, 30kVA, 40kVA, 45kVA, 60kVA, 80kVA
- Hot swappable power modules, battery modules, and static switch module
- Integral front facing maintenance bypass
- 10" touch display provides graphic display - including status and alarms
- 15kVA or 20kVA modules available
- UL-1778 (TUV), cUL (TUV), FCC A, RoHS, TAA
- 2 year electronics, 2 year battery warranty (USA and Canada)

M90-140

15kVA-140kVA N+1
Modular Online UPS
208/120VAC Three-phase

Scalable, modular, high density UPS for mission critical applications

The scalable, modular M90-140 UPS protects critical data and equipment from power problems while supplying clean and reliable network grade power. M90-140 can be configured with a fully redundant power and battery modules. Matching M90-BC modular battery cabinet provides multiple battery strings each with individual breakers.

- Capacities: 15kVA-140kVA N+1
- Hot swappable power modules, battery modules, and static switch module
- Integral front facing maintenance bypass
- 10" touch display provides graphic display, including status and alarms
- 15kVA or 20kVA modules available
- UL-1778 (TUV), cUL (TUV), FCC A, RoHS, TAA
- 2 year electronics, 2 year battery warranty (USA and Canada)
